Re: Hexcel Corporation  
Remediation Plan for the  
Former Hexcel Industrial Chemicals Group  
Lodi Facility, Lodi, New Jersey  
ECRA Case No. 86009  
Our File No. 3597-17140

Dear Steve:

I am enclosing herewith three copies of Volume II of II of the Remediation Plan for the former Hexcel Industrial Chemicals Group which was submitted to the State on March 1, 1989. A review of the QA/QC documentation included in Volume II indicated that QA/QC documentation for the following samples was missing:

MW16-GW02 (filtered and unfiltered)  
MW01-GW02  
MW08-GW02  
MW16-WB01  
TB-88-1205

In order to address the missing information, revised copies of Volume II of the Remediation Plan have been prepared. These volumes should replace the Volume II which you presently have in your files. Before discarding the Volume II which you presently have, however, we would request that you remove the two geophysical logs from the pocket included in Appendix-A2 of the existing Volume II and insert them into the revised Volume II.
